The keys to PLM success for DNV GL
Global quality assurance and risk management company leverages Teamcenter using Active Workspace.

1. Deploy PLM out-of-the-box

Complete PLM solutions for the business needs

- Easy web interface access
- Powerful search and filter
- Global collaboration

2. Manage cost of ownership

Total cost to own and manage over time

- Easy to configure
- Fast
- Easy to maintain
- Consistent

3. Leverage the intuitive web client

Easy web interface access

“Active Workspace is at the leading edge of technology today, HTML5 and Javascript based browser client, for consuming all the Teamcenter functionality with a single logon, it’s at the edge of technology today.”

Powerful search and filter

“For our oil and gas business, we have more than 10,000 documents for our project collaboration across internal users, all using Active Workspace from a web browser. We will have 2,000 more than 10,000 documents for our project collaboration across internal users, all using Active Workspace from a web browser. We will have 2,000 HTML5 and supporting users.”

Global collaboration

“We use Teamcenter Schedule Manager to initiate projects, then use the declarative framework for customization, instead of coding customizations. Teamcenter provides all the functionality out-of-the-box which is needed to support all our work processes.”

Planning and execution

- Teamcenter is a registered trademark of Siemens Product Lifecycle Management Software Inc. or its subsidiaries in the United States and in other countries.

4. Control, track, and measure project performance

Financial accountability

- Easy to configure and reduce code by 60%
- Compliant
- Fast
- Support from the vendor

5. Adapt and tailor PLM to changing business needs

About DNV GL

DNV GL is a global quality assurance and risk management company with 51,000 employees and the mission to safeguard life, make the world safer, smarter and cleaner.

Planning and execution

We chose Intelizign for their experience with Active Workspace. Teamcenter provides full project tracking, planning and execution. It’s easy to create and associate dependencies in the GANTT view.

Project tracking

“The declarative framework for Active Workspace makes it easy to define, manage and control the integration of the different systems and services used by our customers.”

Financial accountability

We are using the project to keep the project on time, on budget and within specifications. We recommend that you keep an eye on the Teamcenter performance and production sites.

Solution

- Teamcenter
- Schedule Manager
- Partner: Intelizign

Vendor: Teamcenter

“Using Active Workspace, we can use our project management plan to track our projects, and we can easily convert the opportunity to a project in Teamcenter and execute them in Teamcenter.”
